

NOT ALL AUTEL TOOLS ARE THE SAME

PROTECT YOUR INVESTMENT — BUY AUTHORIZED THROUGH TRIAD

THAT “CHEAP” AUTEL TOOL COULD COST YOU THOUSANDS

Many shops unknowingly purchase Autel tools from unauthorized or overseas sellers—only to discover they can’t update, can’t renew, or can’t fully service vehicles. What looks like a deal upfront can quickly turn into lost time, lost jobs and lost revenue.

NO UPDATES = NO REVENUE

If your tool can’t update, it can’t keep up with today’s vehicles—and that means lost opportunities for your shop.

WHAT HAPPENS WHEN YOU BUY UNAUTHORIZED?

- No North American warranty
- No U.S./Canada repair support
- No software updates or renewals
- Tool may lock or lose functionality
- No Secure Gateway (SGW) access
- No Autel Cloud or Remote Expert access
- No ADAS software access (calibrations and related functions unavailable)

WHY BUYING AUTHORIZED MATTERS

- Full SGW access for modern vehicles
- Complete North American vehicle coverage
- Perform coding, resets, and advanced diagnostics
- Ongoing updates and renewals
- Manufacturer-backed warranty and support

These limitations can impact your ability to service modern vehicles.

YOUR DIAGNOSTIC TOOL SHOULD MAKE YOU MONEY

Authorized tools help your shop:

- Take on more jobs in-house
- Reduce downtime
- Avoid outsourcing diagnostics
- Increase overall shop efficiency and profitability.

IS YOUR TOOL LEGIT?

If you purchased a tablet, you can confirm its authenticity on the tablet.

Go to settings > About > Region.

It should display North America.

WHAT THIS TOOL ALLOWS YOU TO DO

Turn advanced diagnostics into everyday jobs.

- Diagnose complex vehicle systems with confidence
- Perform coding, resets, and advanced service functions
- Service ADAS, EV, and newer vehicle platforms
- Keep more work in-house—no outsourcing required.

DID YOU KNOW

Many newer vehicles require Secure Gateway (SGW) access just to perform basic diagnostics. Unauthorized tools cannot access these systems.

WORK WITH A TRUSTED PARTNER

At Triad Diagnostic Solutions, we don't just sell tools—we help you choose the right one, get it set up, and keep it running with updates and support.

- Authorized North American Autel dealer
- Expert support before and after purchase
- Help with setup, updates, and renewals
- Guidance on choosing the right tool
- Ongoing training and support
